TUNJO–DOES HE MAKE
WISHES COME TRUE??

This is a Tunjo

It was believed by the Colombian Indians to have the power of making wishes come true. This design was taken from a **Tunjo** (the most powerful man) made of solid gold and was believed to have the double nature of spirit (with wings) and body (a scorpion). It may be seen in the Gold Museum in Bogota.

You could probably paint a picture of a **Tunjo** on a piece of plain paper, burlap or cloth, and hang it on your wall. Every morning when you rise, you could make a wish that business will get better.

Or You could be more positive and place an advertisement in the **CITY DIRECTORY.**

NUMERICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to street descriptions and their location on city map.

Information—as to the location by number of intersecting streets and their relation to other numbers.

Information—as to the name of every householder at any given street number.

Information—as to the name of every place of business and its nature at any given street number.

Information—as to the location of telephones (*) by street number.

Information—as to the character of any street or district.

Information—as to the number of families living at any number and who they are.

Information—as to the correct spelling of names when addresses are known.

Information—as to sections capable of producing the greatest amount of business by personal solicitation or "direct mail".

—Finally—

It takes the "Who is it?" out of your neighborhood and adds another link to your chain of friendliness

Are your ads reaching those millions of women who work?

42% of American women now work.

Consider these facts about women who work*:

- they watch less television -56 minutes for workers and one hour and forty minutes for housewives.
- only one third of working women regularly read any one of the 19 "womens magazines".
- households in which women work have 57% higher median income than households where the woman doesn't work.
- the working woman spends more money on clothing (34% more) than the non working woman.
- eight out of ten drive a car to work. 42% of the first 1,000,000 Mustangs sold were bought by women.
- 60% took a vacation away from home during the last year.

WHY NOT SET YOUR AD IN A WORKING SITUATION?

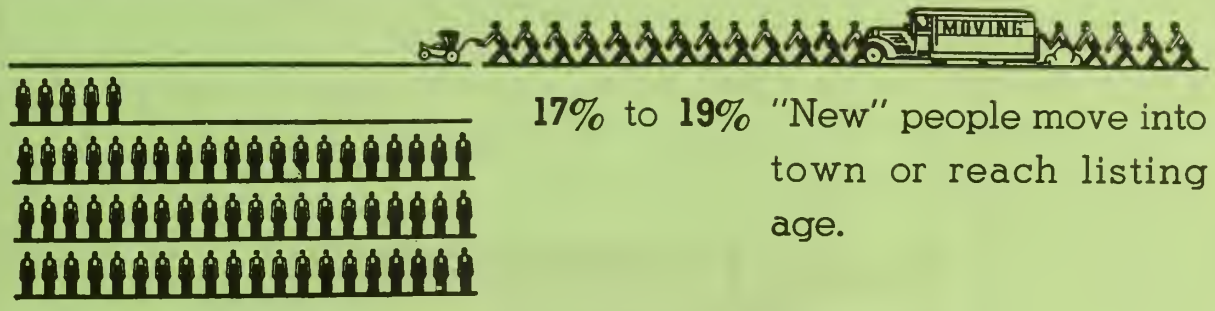
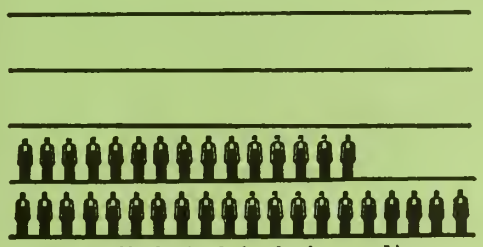
HOW MANY CHANGES IN A YEAR?

Out of every **100** People as listed in the last Directory

16% to **18%** Move away or die



17% to **19%** "New" people move into town or reach listing age.



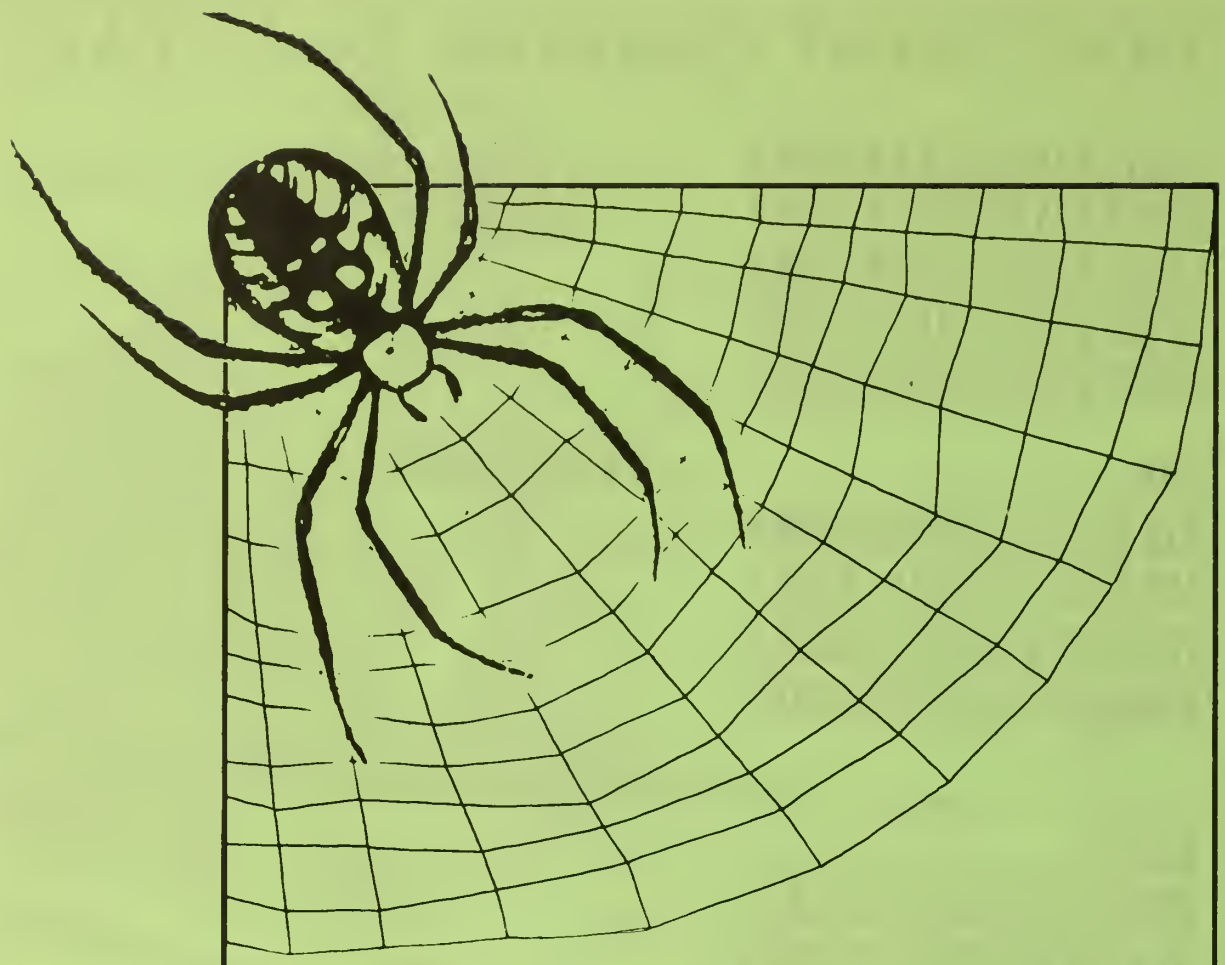
(All that's left that's good)

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.



Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

Act now! Arrange for your Ad to appear in our next edition
